RESEARCH PROFILE

Computational social neuroscientist specializing in the neural and cognitive mechanisms of social learning, memory, and person knowledge. Extensive experience with high-dimensional fMRI data analysis, reinstatement-based memory consolidation paradigms, and computational modeling of human social cognition using reinforcement learning. Seeking a Data Scientist role to bridge high-dimensional data analysis with computational modeling of human social behavior.

EXPERIENCE

Columbia University — Columbia Social Neuroscience Lab

New York, NY

Ph.D. Candidate, Columbia Psychology Department (PI: Meghan L. Meyer)

Sep. 2023–May 2026

- Designed and conducted fMRI studies examining how the dorsomedial prefrontal cortex (DMPFC) prioritizes social information consolidation during rest; findings published in PNAS (2024)
- Investigated how person knowledge learning biases social memory and interpersonal connection using a behavioral reinforcement learning paradigm
- Built end-to-end fMRI preprocessing and analysis pipelines (FSL, Nilearn, SPM) including GLM, ROI, and neural reinstatement analyses on HPC clusters (SLURM) in containerized environments (Singularity, Docker, Conda)
- Collected and analyzed data on changes in social working memory across adolescent development
- Mentored undergraduate and junior graduate researchers; TA for 4 courses including Research Methods: Human Behavior, Moral Psychology, and Abnormal Psychology

Dartmouth College — Dartmouth Social Neuroscience Lab

Hanover, NH

Ph.D. Student, Psychological and Brain Sciences (PI: Meghan L. Meyer)

Sep. 2019–Aug. 2023

- Conducted neuroimaging and behavioral research on default network contributions to social cognition and memory consolidation
- Presented work at CNS, SANS, and OHBM annual meetings; received multiple travel awards for conference presentations
- Completed Neurohackademy (Univ. of Washington, 2023) — intensive training in open neuroimaging data science (Git, Docker, Python, R)
- TA for 4 courses including Laboratory in Psychological Science, Introductory Psychology, and Social Psychology
- Executive Board, Graduate Student Council (2021–22); Co-Chair, Graduate LGBTQIA+ Organization (2021–22);

University of California, Davis — Center for Mind and Brain

Davis, CA

Jr. Specialist, Brain and Social Cognition Lab (PI: Lindsay Bowman, Ph.D.)

Jul. 2017–Aug. 2019

- Lead research analyst on a project investigating the relationship between mother-infant interaction and infant brain electrophysiological (EEG) responses using power spectral density analysis and time-series analysis
- Wrote and maintained Matlab scripts integrating EEGLab, ERPLab, and EP Toolkit for electrophysiological data processing and analysis
- Facilitated and collected EEG data for >50 children ages 3-5 to investigate the neural correlates of social cognitive development, including theory of mind and emotional responses to facial stimuli
- Developed experimental stimuli in E-Prime integrated with BrainVision, Tobii, and OptiTrack systems for data collection
- Trained undergraduate students in EEG data collection and analysis methods

Jr. Specialist, Cognitive Electrophysiology and Neuroimaging Lab (PI: John Olichney, M.D.)

May 2017–Aug. 2019

- Facilitated ongoing research investigating the clinical utility of ERPs as a diagnostic tool in tracking the onset and progression of various neurodegenerative disorders
- Wrote and maintained Linux Bash scripts for EEG/ERP data processing and analysis
- Scored neuropsychological exams such as ADAS-COG, CVLT, MMSE, MOCA, PACC
- Maintained databases and IRB compliance for longitudinal NIH R01 funded research
- Trained research assistants on EEG data processing in Linux and DOS environments

EDUCATION

Columbia University

Ph.D. in Psychology

M.Phil. in Psychology

New York, NY

May 2026

May 2025

Dartmouth College

M.A. in Psychological and Brain Sciences

Hanover, NH

June 2023

University of California, Davis

B.S. in Neurobiology, Physiology, and Behavior

B.A. in Psychology

Davis, CA

Mar. 2017

Mar. 2017

PUBLICATIONS

Jimenez, C. A., & Meyer, M. L. (2024). The dorsomedial prefrontal cortex prioritizes social learning during rest. *Proceedings of the National Academy of Sciences*, 121(12), e2309232121.

Yeum D, **Jimenez C.A.**, Emond J.A., et al. (2023). Differential neural reward reactivity in response to food advertising medium in children. *Frontiers in Neuroscience*.

Jimenez, C.A.*, Geisler, D.*, Smith, M., & Meyer, M. L. (in preparation). Changes in Social Working Memory Across Adolescent Development.

TECHNICAL SKILLS

Programming: Python, R, MATLAB, Bash/Unix, Git/GitHub, Conda/Docker, Jupyter Notebook, R Markdown, SLURM/HPC

Neuroimaging & Data Engineering: fMRI analysis (GLM, ROI, whole-brain, reinstatement/neural pattern similarity), NLTools, Nilearn, NiBabel, SPM, BIDS formatting, fmriPrep, MRIQC

Statistics & Quantitative Methods: Inferential statistics (ANOVA, MANOVA, t-tests, chi-square, non-parametric equivalents), mixed-effects & multilevel models (lme4, nlme), multiple comparisons correction (FDR, Bonferroni), contrasts & planned comparisons, bootstrap & permutation resampling

Computational Modeling: Reinforcement learning implementation & fitting (Rescorla-Wagner), parameter & model recovery, model comparison (BIC/AIC/WAIC)

Machine Learning: scikit-learn, PyTorch, supervised & unsupervised learning, dimensionality reduction (PCA, ICA), deep learning fundamentals (CNNs, RNNs, Transformers)

Research & Experimental Methods: Experimental design, PsychoPy, Qualtrics, Prolific/MTurk, mixed methods

Visualization: Matplotlib, Seaborn, ggplot2, brain surface visualization (MNI space), publication-quality figures

HONORS & AWARDS

Psychology Graduate Travel Award

Mar. 2026

SANS Innovation Award Finalist

Apr. 2025

ASGC/GSAS Travel Award

May 2024

Columbia GSAS Provost Diversity Fellow

2023–2024

Neukom Institute for Computational Science Travel Grant

Apr. 2022

Dartmouth E.E. Just Liftoff Fellow

2019–2020

TALKS

Blitz Talk, Social and Affective Neuroscience Society, Toronto, CA

Apr. 2024

Zuckerman Institute Columbia Neuroscience Seminar Lab Meeting

Mar. 2024

Data Blitz, Cognitive Neuroscience Society, San Francisco, CA

Apr. 2023

WORKSHOPS

Computational Social Cognition Summer School, Birmingham, UK

September 2025

Neurohackademy, University of Washington, Seattle, WA

August 2023
